BY CALVIN ROBINSON

Lots of things to chat about as we wind up on March winds and prepare for April showers. Over on Martha Street I jumped the gun on the annual Town Clean-Up Week and have started already yet. But nothing planted in my modest garden. Traditionally, radishes are first yielders. I looked up a splendid book published by National Geographic Society, called "The World in Your Garden". Tells the story of hundreds of vegetables and flowers. The origin of radishes may be in ancient China, where it is a major food and reaches huge size. A German botanist in 1544 reported seeing radishes weighing a hundred pounds. Ah yes, but at the moment I am looking from the window in My Den, and it is cold outside. The thermometer on the porch was at twenty-eight when I arose. My large crabapple tree was in full bloom yesterday (Monday) but will blossoms survive frost? All over Appomattox, town and county, folks are ready for outdoor activity. Over the week end, lawnmowers were chugging away on Martha Street, cars are being washed, the cobwebs of Winter yielding to the verdure of Spring.

Borrowed from Virginia Trucker Magazine . . . "If you can't get them to listen to you any other way, tell them it's confidential."

Sorry to hear that the local Wilkes Plant Farm will not operate this year. The late Mrs. L. M. Wilkes was a living legend and from far and wide people came or wrote for the quality plants she offered. Doubtless you have noticed that modern super markets are offering plants now, and somehow we will find us a dozen tomato plants, maybe a half dozen peppers, and I have hopes of a modest watermelon patch.

Note from the memo pad: Often we hear someone say, "they do not make them like they used to." Tain't necessarily so. I think they make better shoe strings than ever. My shoes have the original pair.

Glory be, Brightleaf had her right arm in a cast after a fall on Dec. 4, and finally got shed of the cast in trade for a sling. This week the good doctor said she did not need the sling full time. Just be careful. Thanks for your inquiries and prayers. There are so many who have to learn to live with probelms.

Bro. Felix Lombardi, of Pamplin, is a sports fan and when I could not get the recent VMI title basketball game on TV or radio, he phoned me all during the game to keep me informed of the score. Thanks, my friend.

Did you know that there are 13,000 ladies in the USA elected to some government office? A book is being published listing them, with a brief sketch.

Time to struggle with W2 Forms, for tax reports. I think April 15 is the date. But the item that interests me at the moment is the news that the famous two dollar bill is scheduled to come back, maybe next month. I'll settle for any kind of folding money, but many oldtimers will want to continue the old practice of tearing off a bit of the corner of a two dollar bill. Once I had a Confederate two dollar bill, but sold it, when it became a collector's item.

Overheard . . . "I love Appomattox. It is a great place." Heavens to Betsy, YES. The Past for Remembrance, the Present for Performance, the Future for Hope. Thanks for reading, and seeya next week.

Mayor Proclaims April Cancer Control Month

Mayor Henry B. Pack is shown signing proclamation declaring April as Cancer Control Month for the County and for the Town of Appomattox.

"We want to wipe out cancer in your lifetime" is the theme for the 1976 Cancer Crusade in the state of Virginia and the Appomattox County Unit, American Cancer Society plans to do its part to make this theme a reality.

On Tuesday of this week, Henry B. Pack, Mayor of the Town of Appomattox, signed a proclmation declaring the month of April as Cancer Control Month.

Dr. C. G. O'Brien, President of the Appomattox County Units, has announced that Mrs. Marge Mims and Mrs. Beck Hudson will serve as the 1976 Co-Chairmen for the Cancer Crusade in Appomattox County They will head the committee for solicitation of residents in the county with many volunteers making a door-to-door canvass during the month of April asking for contributions to help "wipe out cancer in your lifetime".

Mrs. Mary Alma Hudson will again serve as Chairman of Memorial Funds and Mrs. June Chenault will serve another year as Chairman of Business solicitation. Mr. and Mrs. William Dudley will serve as Chairmen for the Pamplin area, Mrs. Christine Ranson and Mrs. Helen Inge will solicit in the Rocks community, Mrs. Frances H. Paulette will be Chairman for the Evergreen area, Mrs. Nannie Mae Smith Davidson will head the drive in Spout Spring, and Rev. R. Q. Lawing will collect contributions throughout the Concord area.

The Fair Share Goal for Appomattox County for 1976 has been set at $4,500.00. During the month of April many volunteers will be contacting residents and business establishments asking for contributions in an all effort to reach the Fair Share Goal set for the county.

Many county citizens have been contacted for the Leukemia Society, according to Dr. O'Brien. This is a legitimate organization but all the money is taken out of the county and none goes into the Cancer Crusade. Leukemia is considered a cancer and the Cancer Society contributes to the aid of the victims. Remember that April is Cancer Control Month.

Join in the fight against cancer by doing three things: take time to learn cancer's seven warning signals...your volunteer crusader will tell you what they are...and promise you'll see a doctor promptly if any of these signals apply to you or someone in your family; second, be sure to have a regular health check-up to insure early detection and treatment when the chances are best for curing cancer; and third, support the programs of the American Cancer Society with a generous contribution when the volunteer comes to call. "We do want to wipe out cancer in your lifetime".

Welfare Director For County Resigning

Mrs. Hazel Mann

The director of the Appomattox County Welfare Department since 1950 will be leaving her post June 30, 1976. Mrs. Hazel Mann states that she has notified the local Welfare Board and the State Department of Welfare of her resignation effective June 30, 1976.

Mrs. Mann first joined the Appomattox County Department in 1942. She left this position in late 1946 for several years but returned in 1950. In May of this same year became the superintendent, now known as director.

In tracing the development of the Welfare and Social Service system during her tenure at the Appomattox County Office, the programs have always been primarily concerned with children. The main emphasis to give children of disadvantaged parents the same opportunities as other children.

In 1975 the "New Child Abuse" program was initiated. This has been a much needed program and requires someone on call twenty-four hours a day to handle such emergency situations. The primary concern in all matters is the safety of the child. In case of neglect or abuse, the local agency works with the parents in an attempt to resolve the frustrations that led to the charges of neglect or abuse.

"The task of administering the varied and diversified programs mandated by the federal and state departments has been increasingly difficult as workloads increased at a corresponding rate with increased caseloads", Mrs. Mann said.

At present, the agency consists of nine staff members, which necessitated more space to house the Department of Social Services. We are now located in a nice new office which is convenient to other agencies with which we are closely associated, namely; the Health Department and also Juvenile and Domestic Relations Court.

While the agency has lost several programs in recent years to Social Security Administration; others have been added - Medicaid, Food Stamps, Child Abuse and Neglect and Title XX.

Title XX, an amendment to the Social Security Act, is no
